Summaries & diagrams are the best!
I chase abstract visualizations that are
beautiful, but each line has meaning.

Interface design is my passion
& my future. Simplifying complex
digital products is awesome & necessary.

My portfolio as is from 3 years ago.
I included it because I still like it,
& it shows a larger variety of styles.

If you like gnarly details, feel free
to endure my explanation
of how I think and do things
